ALTRA®

Disinfecting Tablets

FLOOR CARE | DISINFECT | CLEAN | HAND HYGIENE

Kills C. diff (*Clostridioides difficile*) spores in 4 minutes and *Candida auris* in 2 minutes!**

Kills biofilm bacteria‡

Altra Disinfecting Tablets are EPA registered and capable of killing *Clostridioides difficile* spores in four minutes. These easy-to-use tablets help reduce cross-contamination on hard, non-porous hospital surfaces by acting against a broad spectrum of microorganisms. For use anywhere you would use liquid bleach, Altra Disinfecting Tablets dissolve in water for spray, mop, cloth, sponge, brush, coarse trigger sprayer, or coarse mechanical sprayer applications.

‡Biofilms are groups of bacteria, joined together to form a coating that is resistant to disinfectants. Altra Disinfecting Tablets are capable of penetrating biofilms, killing *Pseudomonas aeruginosa* and *Staphylococcus aureus* bacteria.
